State Diagram (Mealy)

State Table (Mealy) menggunakan Binary State Assignment

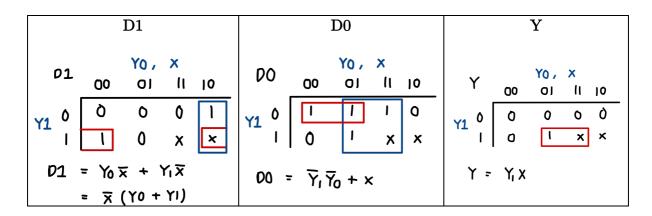

| Present State | Next  | Next State |       |       |
|---------------|-------|------------|-------|-------|
| Flesent State | X = 0 | X = 1      | X = 0 | X = 1 |
| 00            | 01    | 01         | 0     | 0     |
| 01            | 10    | 01         | 0     | 0     |
| 10            | 10    | 01         | 0     | 1     |

Dengan Y1, Y0 dan X sebagai input dan D1, D0, dan Y sebagai output.

#### **Boolean Expression**

| Present State |    | Next State $(X = 0)$ |    | Next State $(X = 1)$ |    | Output (Y) |       |
|---------------|----|----------------------|----|----------------------|----|------------|-------|
| Y1            | Y0 | D1                   | D0 | D1                   | D0 | X = 0      | X = 1 |
| 0             | 0  | 0                    | 1  | 0                    | 1  | 0          | 0     |
| 0             | 1  | 1                    | 0  | 0                    | 1  | 0          | 0     |
| 1             | 0  | 1                    | 0  | 0                    | 1  | 0          | 1     |

Dengan Y1, Y0 dan X sebagai input dan D1, D0, dan Y sebagai output.
